

Asia: Human Rights

Presented by: Capncrunch

Steps to success!

- ✿ *This particular project will require several, but diligent, steps to achieve the success we would like to see.*

Getting Started

- ✿ *First, we plan to establish a company that has the drive to bring much attention to the human rights crimes happening presently.*

Budget Uses

- ✿ *Along with donations from the United States, Canada, and the United Kingdom, most of our budget will be mainly used towards communication purposes.*

Communicating

- ✿ *Through our budget, our communication tactics will work through advertising, and speaking as often as possible to political leaders.*
- ✿ *Also, we will be communicating through mass media. This includes radio shows, the internet, and various television networks, encouraging everyone to stand up for human rights in those various countries.*
